Discontinuation of Parabus Roof Hatch Size 530x450 and 530x 610

Dear Customer,

Our focus being on emergency exit approved hatches it was decided to take out the above mentioned roof hatch sizes of marginal status from our production range as of now. Roof hatch series concerned are DLM1 and GLE1 (530x450), DLM2 and GLE2 (530x610). Only spare parts will still be available.

Please be aware of the fact that there are no replacing hatches for the series now to be discontinued. Only possibility for you would be to change the roof opening.

Despite of this, we hope to have the opportunity to enjoy our business relation also in future!
