Invitation to the "IAA Bus Climate Talk 2014"

It's time to get to the heart of important themes. That's why in 2014 we have consciously shifted the design emphasis of our booth away from product showcases towards theme presentations. Our experts will be available at any time with their know-how for a detailed "Bus Climate Talk".

You are warmly invited to visit us at our **stand in Hall 11 / Do1**, where you can look forward to lively conversations with snacks and beverages.
