Limited service starting May 18th due to COVID-19

Dear Valued Customer,

COVID-19 is continuing to spread throughout the world, with a significant impact on all our lives. On March 11, WHO officially declared the coronavirus outbreak as a Pandemic. On March 19th, 2020 the law of emergency state came into force in Finland.

During this extremely difficult time, the top priority of The Valeo Group is to protect the health of all employees, and limit the risk of transmission of the virus at the workplace.

We trust that the local governments are doing the maximum to control the situation and we are supporting our teams to stay healthy and protected.

Pandemic has also effected on our supply chain and components delivery times have increased.

As a result of these exceptional circumstances, Valeo TCV Finland is forced to:

- **Limit its operations between May 18th - May 25th.**

Due to limitations people will not be available as normally and there will be delays.

Thank you for understanding and we apologise for the inconvenience caused.

With best regards,

Tommi Forsberg
Sales Manager
