## Summer holidays 2020

### Covid-19

Dear Customer,

Please be informed that due to Covid-19, Valeo T.C.V. Finland will be closed in week 25 (15.6 - 21.6.).  
During this time dispatches/ pickups are not possible.

This year, our summer holiday period will take place from July 13 through August 9 2020 (weeks 29-32).  
During the holiday period there might be a longer delay in responding than normally. We hope for your understanding.

Dispatch and pick-up of goods work as usual all other times, except during weeks 30-31 (July 20 - Aug 2) when our warehouse as well as all other operations are closed.

In order to avoid production stops at your facilities, we kindly ask you to make note of the above.  
Please place your purchase planning in good time in advance, as orders placed during the summer closure period shall be sent according to standard delivery terms: 3-5 weeks after receiving the order after our return from the holidays.

Also, we cannot ignore the possible impact on longer delivery times still after the holiday period due to Covid-19.

Thank you for taking this fact into your consideration when planning your activities for the summer.

With best regards and best wishes for a nice summer,

**Valeo Thermal Commercial Vehicles Finland Ltd**
