

Ventilation

▶ G1W

Hatches / Fans

Safety and Comfort by Spheros

A reliable ventilation hatch for multi purpose use. With its large opening (45°) this unit is ideal in vans, special vehicles, animal transport vehicles, and campers e.g. where extra air exchange is needed.

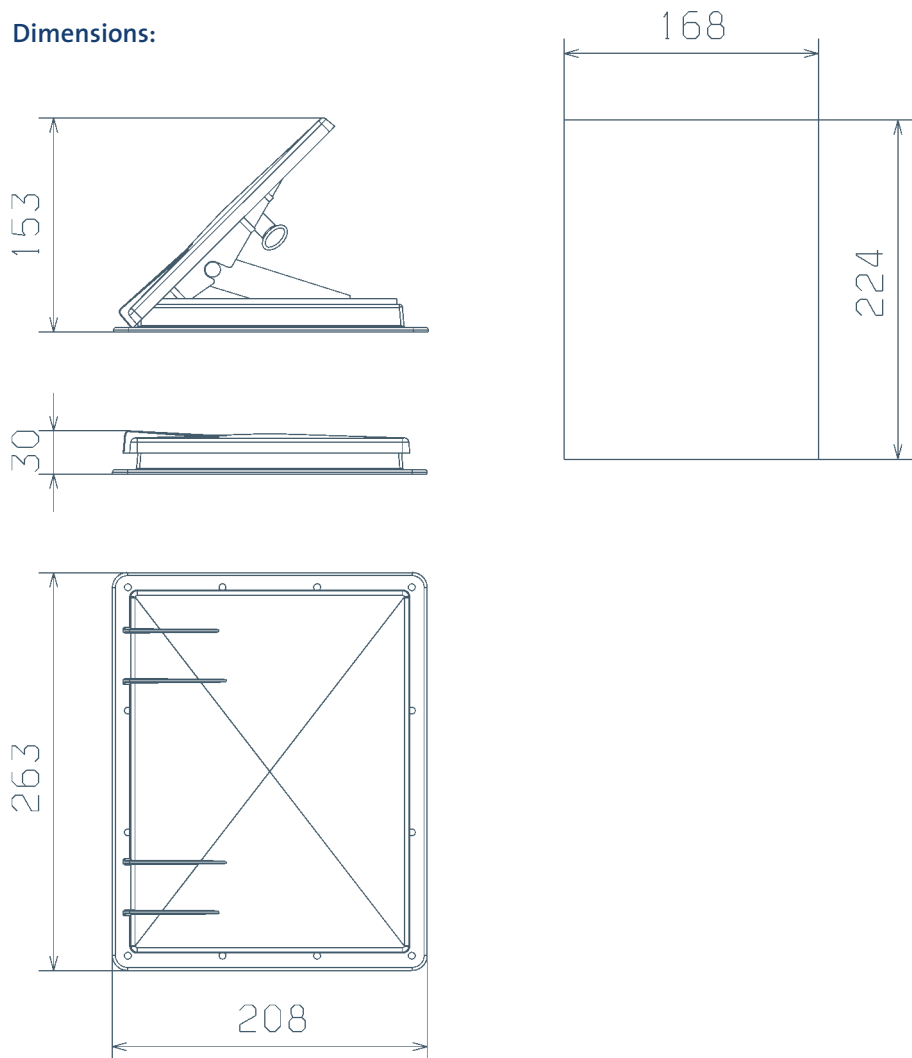

▶ G1W

The hatch and the durable spring mechanisms with open/closed position are made with injection molded plastic parts making the unit rustproof and robust in use. The ventilation hatch is available in white (G1W). Additionally there is an interior panel in grey (G1INF) obtainable on order.
